

Counterfeit Detectors

D64 (UV/MG/WM/MP)

Protect hard earned cash with this quad counterfeit detection system. Check for counterfeit bills using ultraviolet, watermark, magnetic ink, and micro printing detections systems. Additionally this counterfeit detector is equipped with an auto-on/off sensor saving you energy and time

Great for banks, bars, nightclubs, restaurants, movie theaters and anywhere cash transactions take place.

Advantages

- Reduces counterfeit losses
- Accurate and convenient to use
- Clearly visualize the fluorescence of the security thread in US notes or the fibers and other features present in other currencies, credit cards, special documents, etc.

Features

- Equipped with two powerful UV UV lamps (12W)
- Easily inspect the surface of the bills and and other documents
- Equipped with watermark verification window and a magnetic detection to further increase bill or document analysis capability
- Includes a built-in magnifying lens for micro-printing verification
- Specially designed to protect the user from direct eye exposure to the UV rays

Specifications

Dimensions	10.5" x 5.5" x 5.75"
Power Consumption	16 Watts
Currency Accepted	Any currency
UV Detection	Two 6W UV lamps (12W)
Magnetic Detection	Magnetic Head
Watermark Verification	Fluorescent Lamp
