

Check Scanners

An advanced check reader and imager with a small footprint - ideal for high performance POS applications.

The Excella STX captures check images and ID card images in a single pass, making check processing and endorsement printing fast and simple. Choose the Excella STX for its customized endorsement printing and franking and its 200 dpi print resolution. With its standard USB interface the Excella STX can be quickly added to any computer. A Benchmark of Excellence in Check Scanning Technology. Excella STX offers a viable and affordable alternative to implement image capture at the earliest entry points for check payments

Excella™ STX

Advantages

- Single-feed check operation
- MICR reading: E13B and CMC7
- Scans front and back images of a check in a single pass
